Sinking of an additional Bore well to supply the supply of water in Bengal Town Municipality

From

The Dy Commr Chittoor District

No N 6 C 455/47-48 Dt 11-10-47

Forwards for sanction an estimate for Rs 3000/ for sinking an additional Bore well to increase the supply of water to Bengal Town as resolved by the Local Municipal Council at its meeting held on 30-8-47

—

1) The Dy Commr has not furnished information about the frequency of water to the Town the quantum now being supplied from the existing Bore well and the purpose for which the Relief additional Bore well is required to be used, and the extent to which the proposed additional Bore well ~~will augment the supplies~~ now to be sunk and in the absence of these particulars it is not possible to judge the need for incurring a cost of Rs 3000/ on this work half of which has to be borne by Govt as a grant from the Water supply grants as per the Resolution of the Municipal Council enclosed

2) A draft letter to the Dy Commr Chittoor calling for the above information is put up for approval or other orders

Letter No A6C 455/47-48 dated the 20th April 1948 from the Deputy Commissioner, Tenkasi Dt submitting a copy of letter of the President, Town Pl Cl, Kumgal & of Sanitary Engineer Bureau of Sanitary Engineering on the subject and stating that the particulars called for have been furnished Encl

5) The Sanitary Engineer states in his letter dated 13-1-48 that the President, Kumgal Pl Cl, that the borewell which is functioning at present yields 1000 gallons per hour & that it is being pumped for about 14 hours a day discharging 14,000 gallons from

Sinking of one additional borewell
MC6360. to increase the water supply in Kumpta
Town

The Rameswara well 8000 gallons are being pumped at 800 gallons per hour in 10 hours/day, the aggregate supply being about 22000 gallons per day which is inadequate for the population of Kumpta town, viz 6000 calculating at least 10 gallons per capita, a minimum of 60000 gallons is stated to be the requirement of the town as against 22,000 gallons now obtained from the existing 2 wells

6) As regards the additional quantity of water expected to be pumped from new borewell to be sunk, he states this can be furnished only after the well is sunk and put into operation The cost is Rs 3000 of which half is proposed to be met by the Municipality and the other half by the Govt from the "Water Supply Grant" As per the resolution of the MC the estimate is also enclosed, as prepared by the Sanitary Insp

11) 12) Approved by the Vice President

7) It is clear that there is need to have one or more additional borewells in Kumpta

6360

Sinking of an additional borewell in Kunigal Town.

In the circumstances explained sanction may be accorded to —

1) expenditure of a sum of Rs 1500/- from Municipal funds towards half share of the Cost of the bore well, the amount being paid out of the closing balance and

2) grant of a sum of Rs 1500/- as from the water supply fund towards the balance of the cost

Sir,

Subject Sinking of an additional bore-well to Kunigal Town Municipality

I have the honour to state that the Town Municipal Council, Kunigal, have at their meeting held on 30 7 47 - resolved to sink an additional bore-well at an estimated cost of Rs 3000/- to supplement the existing supply of - water to the town and to request the Government to meet half the estimated cost by way of grant

The President states that at present water is being supplied to the Town from a borewell and another, Padmeswara well and the present supply is inadequate to meet the growing requirements of the public

With the completion of the proposed ~~WE~~ bore-well, the Municipal Council hope to meet the present - requirements of the Town and also give some connections to private houses

An estimate for Rs 3000/- has been approved by the Sanitary Engineer and a suitable site selected to locate the well The Council have resolved to meet - their share of cost out of the closing balance for 47-8

In view of the above circumstances, I request

request that early sanction of Government may kindly be obtained to the resolution of the Municipal Council The connected records accompany

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Tumkur District.

Subject Sinking of an additional Borewell to increase the supply of water to the Kunigal Town Municipality

—

Sir,

With Reference to your letter WO A 6 C 458/47-48 dated 11-10-47 on the above subject I am directed to enquire as follows -

1) How much water is required daily for consumption in the town?

2) What is the quantity of water now being supplied to the town from the existing Borewells

ed the padmeswara well and whether they are being worked to their full capacity?

3) How much extra additional supply can be expected by the sinking of this additional borewell and whether supplies would be adequate when to meet the needs of the town - if these additional bell is dug?

An early Reply is Requested

Subject - Sinking of an additional bore-well to increase the supply of water to Kunigal Town Municipality

--

With reference to your letter No L 10693 dated 10th November 1947, on the above subject, I have the honour to forward herewith a copy of letter No H C 56/47-8 dated 2-2-48 received from the President, Kunigal Town Municipal Council, together with its enclosure, viz , copy of letter No 665 dated 13 1 48 of the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore and to state that the particulars called for by Government have been furnished therein

In the circumstances reported, I request that sanction of Government may kindly be obtained early to the proposal and also for the sanction of Rs 1,500/-, being the half the share of cost to be borne by Government, as recommended by the President

I have the honour to be,

Additional Bore-well in Kunigal Town

With reference to your memo No A6 C 455/47-8 dated 1st December 1947 calling for report on the above subject I beg to submit herewith for your kind perusal a copy of the letter No 365 dated 15th January 1948 received from the Sanitary Engineer, Bangalore, furnishing his opinion on the subject I quite agree with the views given by the Sanitary Engineer and to state that there has been need for increased supply of water as the existing supply is quite inadequate to meet the growing demand of the town and hence the need for a II bore-well

I, therefore, request that Government may kindly be addressed to accord sanction to sink a II bore-well in the town and also to sanction Rs 1500/- being the share of cost due from Government

I solicit early orders in the matter

Re 2nd Bore-well in Kunigal Town

With reference to your letter No H C 56/47-8 dated 6th December 1947 and subsequent reminder No H C 56/ dated 20 12 47 regarding the above, I have the honour to state that the population of Kunigal is about 6000 and at 10 gallons per capita per day, 60,000 gallons of water is required per day

The present bore-well which is yielding 1000 gallons per hour is being pumped about 14 hours discharging 14,000 gallons per day The Padresivara well gives 800 gallons per hour per day and is worked for about 10 hours giving 8000 gallons per day, thus working to 22,000 gallons per day Both the pumps are being worked to their full capacity

The exact yield that is expected from the additional bore-well can be ascertained only after the bore-well is sunk and exact yield tested

If one or two additional bore-wells are sunk and these prove successful, the supply of water to the town will very much improve
